## GOLDEN GATE CANDIDATES INTERESTED

The past week has been a repetition of the previous week, in that it has seen an increased amount of interest and hustling on the part of all contestants.

It all comes down to the fact that people always are willing to extend a helping hand if they know it is wanted, and will be appreciated. People cannot know you desire to win unless you tell them about it. When you let them know that you wish to win you will find plenty of help. If you don't let them know you are interested why in the world should they bother to help you? Don't hide your light under a bushel. Let it shine and keep busy adding fuel to the flames of your candidacy. Use the Coupon Trade books. They are good at any time. Hustle subscriptions, and above all, don't sleep on your oars, and you can win. Let Uncle Sam help you. Drop postals to your friends and solicit their help. It is easier and quicker than personal calls. The trip is worth any amount of effort. The time grows shorter each day.

Sunday's Ardmoreite will tell you who won the special prizes this week and will tell you of the beautiful prizes to be given away on Dec. 3. The judges will not count on next Thursday night on account of Thanksgiving, but will count on the Thursday night following, which will be Dec. 3. Girls, this next prize is something nifty and well worth a little effort on your part. See Sunday's paper for full particulars, and above all, remember that if there is any help you need, The Ardmoreite, or any of the merchants, will be glad to assist you, wherever it is possible.

The Coldest Morning  
The mercury at the government station registered 24 above zero this morning. It was the coldest morning of the fall. Ice was plentiful, much vegetation that withstood the cold up to this time, wilted down under the freeze, many hydrants were frozen. The sun shone this morning, the wind was not disagreeable, the air was bracing, and many wore their overcoats to work. The weather during the fall has been ideal.

## WHO WANTS TO BE THE COMMISSIONER?

FOUR GOOD MEN AND TRUE ARE GOING TO HAVE A JOB WISHED ON THEM IN APRIL ELECTION.

Four good citizens of this city are going to have a good job wished on them at the April election, and the wise ones are beginning to wonder who the lucky (?) persons will be. Four commissioners have to be selected at this election, and as the present incumbents have raised their hands and have been heard to remark "Never again." Besides, one or two of them have aspirations to things higher up. Therefore, it is going to be necessary for four good men to volunteer for the respective wards and serve the people faithfully and earnestly for the magnificent salary of \$5,000 per month.

Several men have been sounded on this subject, but they all firmly say that there is absolutely "nothing doing." They had rather sit at home every Tuesday night, and read the paper, than come to the city hall to serve the people's interests for that amount, together with the criticism that goes with every public office.

The present city charter is coming in for a great deal of criticism lately, and it would not be surprising if the people were asked to amend that instrument in the near future so that it will be possible to get people to serve as city officials, as it is at present, very few men, other than from a patriotic duty, will serve as city commissioner, but they say that it is an imposition on the part of the rest of the citizens to think that they should do so for practically nothing.  
At any rate, the four places have to be filled and some one in the four wards is going to take the job, whether they want it or not.  
Now, who will the four men be?

### Thousands of Belgians Executed.

LONDON, Nov. 20.—The Belgian inquiry commission reported today that the Germans executed 650 Belgians in the village of Tamines. Seven hundred were executed at Dinant, and more than one thousand executed in the province of Luxembourg, Belgium.

### Await Battle in Russia.

London, Nov. 20.—Public interest is now largely centered in the battle between the Russians and Germans between the Vistula and Warta rivers.

in Poland, as it is believed the fighting there will have a marked effect on the duration of the war.

Both German and Russian headquarters are very sparing with information. All that is definitely known is that the Russian advance guard, consisting largely of cavalry, which advanced right on to the German frontier after the battle at Warsaw, met superior forces of the enemy and has been compelled to fall back more than half the distance covered in the advance.

The Germans are sending very strong forces of men and guns into the country between the two rivers, where the battle must be fought, hoping that in this confined area the Russians will not be able to deploy their enormous forces to advantage as they have done in practically all the previous battles.

Grand Duke Nicholas, the Russian commander in chief, however, can choose his own ground for the battle, and probably will select it as far from the German lines of communication as he can.
